

Compact

proton

EVERYTHING YOU COULD ASK FOR.

Usually, if a car has everything you want, the price is everything you don't want. But if the car is a Compact, it's everything you could ask for (including great value).

The Compact is superbly styled and ergonomically designed, so it has far more space than its name suggests. For the driver, the dashboard puts all the controls and instrumentation

where they're easy to reach and easy to see, and the tilt adjustable steering column lets you choose the driving position that suits you best. So you're completely comfortable and firmly in control.

And we even give you a high quality Blaupunkt stereo radio cassette system.

For passengers, there's ample legroom and headroom for even the longest journey. Or, if you've a large load to carry instead, you can fold down the 50/50 split rear seat to turn the spacious

boot into a capacious one. Now you're sitting comfortably and ready to go, the last thing you should worry about is the engine. The Compact has a range of engines you can rely on completely, combining performance with economy, whether you choose the 12-valve, 1.3 or 1.5 fuel-injected models, or the 16-valve 1.6 models.

AN ALL-ROUND SMOOTH PERFORMANCE.

A smooth-performing engine is no use without a smooth ride. But whether you're travelling

on motorways or winding country roads, you'll find every journey you make in your Proton is made more enjoyable still, by its superb stability and excellent road holding, at all speeds.

It's all down to the thoroughness and attention to detail, which is everything you could ask for — and everything

you might expect from a Malaysian engineered car. After all, the Malaysians have built not only the world's tallest tower, but also one of

the world's longest bridges. And with an extremely fast growing economy, they know a thing or two about safe investments too.

A SAFE CHOICE.

Choosing a car is a big decision, buying one is a big investment and driving one is a big responsibility.

So we've made the Compact

safe for you and your passengers, with a driver's airbag on most models, side impact bars, a steel reinforced safety cell, high tensile steel body, front and rear crumple zones, and a fuel tank positioned for optimum safety. Next, we've made the Compact a safe investment for your money, with tough, galvannealed steel key body panels, an extensive anti-corrosion underbody treatment and an 8 stage paint process.

We've made the Compact safe against car thieves, with a state-

of-the-art transponder 2-circuit immobiliser and a permanent visual deterrent linked to the National Vehicle Security Register.

And finally, we've saved you from worry by not only making the Compact incredibly reliable, but also by giving it the UK's best warranty package.

EVERYTHING YOU WANT FROM A WARRANTY.

For your complete peace of mind, the Compact comes with a complete package of warranties. There's a 6 Year/60,000

mile Power-Train Warranty, a 6 Year Unlimited Mileage Bodywork Warranty, a 3 Year Unlimited Mileage Paintwork Warranty and a 3 Year/60,000 mile Total Vehicle Warranty. And as if that wasn't enough, you also get 3 Years' RAC Membership.

What more could you ask for? How about a test drive?

Sometimes you can find a car that's affordable. Or a car that's economical to run. Sometimes you can find a model that's reliable. Or one that cuts an elegant, sporting dash. But if you thought you'd never find a car that combines all these qualities in one superbly practical package, take a look at the Compact 1.3 LSi.

proton

1.5 GLSi

A car to carry the family in comfort, and comfortably within your budget. There's plenty of luggage space in the boot, and superb performance under the bonnet from a powerful 1.5 litre, 12-valve, fuel injected engine. Combined with the taut suspension and precise handling it all adds up to a car that's both highly practical and a delight to drive.

Car shown with optional metallic paint and alloy wheels as an accessory.

SPECIFICATIONS INCLUDED:

As 1.5 LSi - plus:

- 12-Valve 1.5 Litre Fuel-Injected Engine
- Central Door Locking
- Front Electric Windows

- 4 Speaker Blaupunkt Stereo Radio Cassette

OPTIONS AVAILABLE:

Metallic Paint

• Electric Sunroof

• Air Conditioning

• 3 Speed Automatic Transmission

1.6 SRi

Whether you're flying around town or flying off to the hills this weekend, you'll love the chic style and athletic performance of this highly specified 3 door Compact. (It's even got an 'intelligent' sun roof that automatically shuts when you lock the car.)

The shapely body hides bags of space for passengers and luggage, as well as concealing a 1.6 litre engine that's nimble and responsive.

SPECIFICATIONS INCLUDED:

- As 1.5 GLSi – plus:
 - 16-Valve 1.6 litre Fuel-Injected Engine
 - Electric Tilt & Slide Glass Sunroof
 - ABS
 - Electric Door Mirrors
 - Alloy Wheels
- Superior Sports Touring Front Seats in 'Riviera' Velour
- Rear Spoiler
- Drinks Holder in Centre Console

OPTIONS AVAILABLE:

- Metallic Paint
- Air Conditioning
- 4 Speed Automatic Transmission

1.6 SEi

SPECIFICATIONS

As 1.6 SRi, apart from Air Conditioning is standard instead of Electric Sunroof. Manual or Electric Sunroof is available as an Optional Extra.
